SPIRIT SERIES MAIN GREENHOUSE AND EXTENTION SET ASSEMBLY STEPS OVERVIEW

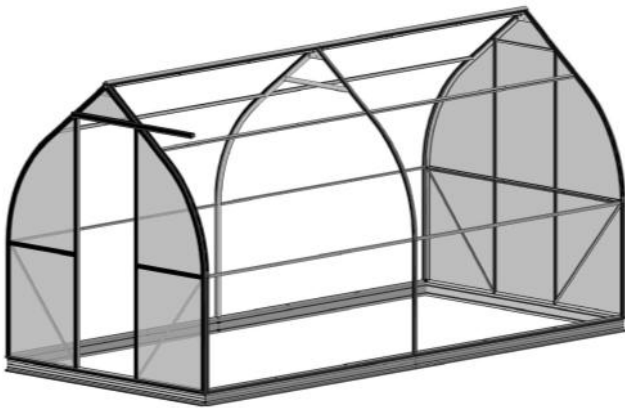

You will need to have 2 or more persons to participate in the assembly of main house and extension set.

1. Install the base
2. Assemble front gable, bottom sill and curved glazing bar on the base, fit main building ridge to the front gable, and attach curved strengthening T-shape frame on the curved glazing bar. (Please see page 6-8 in "EXTENSION GREENHOUSE MANUAL".)

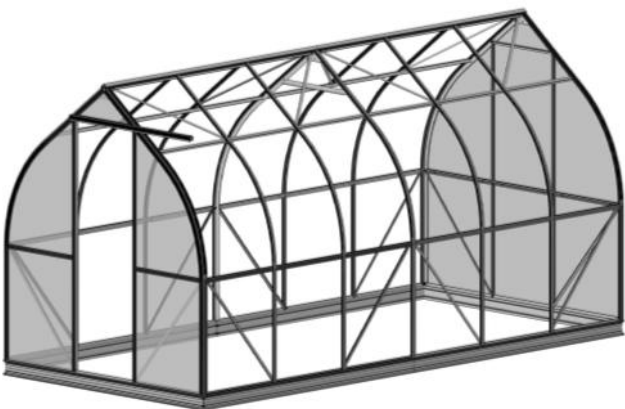

3. Assemble rear gable and extension bottom sill on the base, and connect extension ridge to rear gable and main building ridge by extension plate. . (Please see page 9-11 in "EXTENSION GREENHOUSE MANUAL".)

4. Fit hanging basket rail bar on roof.

5. Attach curved glazing bar on roof.

6. Fix embracing bar on roof and side wall .

Once the frame has been constructed you can return to the standard MAIN GREENHOUSE MANUAL" and continue with the assembly. Undo nuts, insert polycarbonate panel, and tighten again.
